

## Student Programming Disclaimer & Expectations

### Child Life Internship Prep Live Course

Our Internship Prep Live Course is designed to support students who are looking for guidance, structure, and clarity throughout the application and interview process.

Students who benefit most from this course are those who:

- Are applying for internships for the first time, or
- Have applied once or twice and want clearer direction, feedback, and support.

If you have applied to internships multiple times without success, this course may not fully meet your needs on its own. In these cases, applicants often require highly individualized feedback, deeper application review, or one-on-one strategy support beyond what our group-based foundational course can provide. If you feel one-on-one support would be a better fit for you, we offer those services [here](#).

Enrollment in our program does not guarantee internship placement or specific outcomes. The courses we offer are educational and supportive in nature, and success is influenced by many factors, including individual effort, prior preparation, and engagement level.

We are committed to being honest about who our programs serve best so you can make the most informed decision possible. We look forward to supporting you and welcome any questions you might have. To contact us, email us at [info@heartsconnected.org](mailto:info@heartsconnected.org).
